DESCRIPTORS	Annual Reports; Government Publications; *Library Collections; *Library Services; *Public Libraries; Regional Libraries; *State Programs

ABSTRACT

This report on Alabama public and regional libraries and their services includes brief discussions of the year's state and federal aid, public library development, interlibrary cooperation, library automation, summer reading programs, services for the blind and physically handicapped, planning and research, library services to institutions, continuing education, and public library service. A library operations statistical report covering the period from October 1, 1977 to September 30, 1978 details the resources, circulation, and finances of Alabama public and regional libraries. A directory of public libraries lists institutions alphabetically by city, while a directory of regional libraries lists institutions alphabetically by name. (FM)

Report of the Director

OVERVIEW

This past fiscal year has been one of many accomplishments in strengthening the ability of the Agency to provide new and improved services. In addition, state aid to public libraries increased for the first time in two years.

The following are some of the new services and programs established during the past fiscal year.

- The new Division for the Blind and Physically Handicapped building was opened in May.
- Public Administration Service completed a study on the establishment of a multitype library network in Alabama.
- The first statewide union catalog, Alabama Interlibrary Catalog (ALICAT) was completed.
- A Serials department was established.
- Periodicals and Microfilm room was created.
- Over 4000 books in the humanities purchased in connection with the Alabama Heritage project were cataloged and distributed to public libraries.
- The first Statewide Trustee Conference was held
- Humanist-in-Residence program established.

These and other developments are discussed in greater detail in this report.

LIBRARY SERVICES AND CONSTRUCTION ACT

In FY78, federal funds for public libraries, provided by the Library Services and Construction Act, amounted to $1,033,522 for Alabama. Of this total, $727,093 was awarded to public libraries as special program grants; $70,000 was spent on statewide public library projects, and $236,429 was expended for Alabama Public Library Service operations. Of the 101 applications for funds for local library projects, 63 grants were awarded to 25 public libraries, with one grant awarded to a state institution, the Department of the Adult Blind and Deaf. This was an all time high for the number of grants awarded for LSCA projects. We continue to work toward stretching our limited funds as far as possible while still trying to avoid the shot-gun approach.

As a result of these LSCA funds, Alabama's public libraries made considerable progress toward achieving the goal of providing a high caliber of library and information service to all Alabamians. Four new bookmobiles were partially funded.

Two full-time and four part-time scholarships were awarded for graduate study in library science, funding for a statewide union catalog which lists the holdings of the seven state academic libraries plus holdings at APLS and Birmingham Public Library, seminars, an extensive statewide library study of resources and rural bookmobile service.

In addition to these programs, LSCA funds provided library users with greater access to non-print materials through the Alabama Cooperative Film Circuit and the audio-visual services of the state agency.

The limited resources of the individual libraries are supplemented by those of the Birmingham Public Library Resource Center and the Reference and Resource Center at the Alabama Public Library Service. Cooperative efforts to increase the availability of information in a variety of formats are benefits of the LSCA grant program.

Federal funds which supplement state and local monies, continue to be a vital part of the support of library development in Alabama. As a result of careful use of LSCA funds, Alabama has seen a marked increase in the types and quality of services offered by public libraries throughout the state.

STATE AID

After two years of no increase in state funding for public libraries, state funding reached an all time high during FY 1978. $1,056,438 (31¢ per capita) was distributed to the 180 public libraries throughout the state.

State Aid monies are primarily used by local libraries to provide materials and services which could not be provided otherwise. State aid funds supplement local support; it cannot be used to replace local funds.

In keeping with the changing times, a state-aid committee was appointed to develop new criteria for the use of state funds. The revised criteria are expected to be ready for FY 1979.

PUBLIC LIBRARY DEVELOPMENT

The increasing demand for library materials and services produced the need for adequate facilities. Many communities evidenced their support of the need for library services by financing the construction of new library buildings and initiating new library programs.

Construction of new facilities was begun during this fiscal year in Ashland, Lincoln, Roanoke, Sylacauga, Talladega, Tuscaloosa, and a new branch in Huntsville. Additions or renovations are under way in Oxford and Piedmont with a new building recently completed in Boaz.

The further development of regional libraries continued to progress. Of particular note was the growth among member libraries in the Cheaha Regional, the merger of the Choctawhatchee and Houston Regional libraries, and the formation of a county system in Jefferson County. These advancements were made possible by LSCA grants.

INTERLIBRARY COOPERATION

The system study conducted by Public Administration Service was completed in early May. A full presentation was made to the library community at that time. Its chief recommendation was that Alabama should begin to develop a multitype library network.

Regional hearings will be held to provide the library community an opportunity for input concerning the recommendations of the study. This Agency sincerely hopes that Alabama's libraries will see the many benefits that would be possible through system development. Since as librarians our chief concern is service to the people of Alabama, it is encumbent upon us to provide this service in the most economical way possible. Multitype systems with state support is one way to accomplish this.

The COM Union Catalog, aided by LSCA grants, became a reality this past year. The Alabama Interlibrary Catalog (ALICAT) consisting of the holdings of the seven largest university libraries, Birmingham Public Library and APLS is now located in 32 libraries throughout the state. This, of course, is a significant development in facilitating inter-library loan.

LIBRARY AUTOMATION

During 1978, the Alabama Public Library Service achieved several milestones in library automation which

should provide benefits for Alabama libraries and their patrons for years to come. Also, several new automation projects were undertaken and additional programs were identified which could be improved through automation.

Aided by LSCA grants, Birmingham Public Library converted its manual card catalog to a computer-output microfilm (COM) catalog. With the addition of seven SOLINET University members and APLS, the Alabama Interlibrary Catalog (ALICAT) was produced. Using Rom Readers, the Union catalog was placed in various libraries throughout the state.

It is planned for 1979 to increase the number of participants in the Union catalog by inviting other libraries throughout the state to add their holdings. At present, the COM Catalog contains over 225,000 titles. With the addition of more libraries' holdings, ALICAT would truly become a statewide catalog.

Alabama Public Library Service's membership in SOLINET produced an important automated benefit: APLS became a cataloging center for libraries which were too small to afford an on-line network terminal. Catalog cards are produced automatically for those titles identified as holdings for a participating library. Ten public libraries and one junior college library are participating in this pilot project.

A major area of automation was undertaken during 1978 in the newly completed Division for the Blind and Physically Handicapped. The design for the automated system was completed and included detail specifications for on-line inventory control, automated circulation, and computer-assisted selection of reading materials for BPH patrons. In addition, three CRT terminals and one printer terminal were installed for program development, system testing and database conversion. These terminals were operational for the dedication ceremonies in September and demonstrated the capability of on-line updates and automatic card preparation for materials circulated to patrons' homes.

The system is planned to be operational around July, 1979, and will be one of only six on-line systems in the country for BPH services.

Plans for a cooperative automated circulation system for the Montgomery area continued into 1978. After a thorough study of the requirements for automated circulation and a close look at the available commercial systems, a tentative decision regarding the most suitable turn-key system was made.

Since substantial discounts can be obtained from vendors for a statewide circulation system, meetings were held with interested library directors around the state to explore the possibility of acquiring several systems which would serve the largest academic and public libraries. Plans for this project will be formulated during FY79.

SUMMER READING PROGRAM

The 1978 Alabama Summer Reading Program, SEARCH OUT – OTHER WORLDS, OTHER BEINGS, was planned and implemented by the state's public librarians. Capacity crowds of children packed libraries for programs featuring popular science fiction characters and themes. Over 60,000 children, ages 6-12, searched out their favorite books during the programs at local public libraries.

Since its inception in 1971, the Statewide Summer Reading Program has been one of the most effective library activities sponsored by the Alabama Public Library Service. Emphasis on local program planning utilizing printed materials from the state agency has resulted in a successful statewide program to reach young people in Alabama.

DIVISION FOR THE BLIND AND PHYSICALLY HANDICAPPED

Although the BPH program was officially transferred to APLS at the beginning of the fiscal year, October 1, 1977, the new building was not ready for occupancy until May, 1978. Much time was devoted to preparing the books, records and machines for the move from Talladega to Montgomery. By dedication time, September 19, the Division swung into full operation.

Between May 1, 1978, and September 30, 1978, a total of 17,792 books and magazines were circulated. Over a thousand open reels and cassettes were produced or duplicated since July, 1978, when the audiobook production section became operational. Operating policies and procedures, criteria for subregional libraries and a narrator review board to screen volunteer narrators, were established and operating effectively. A concerted effort to locate potential users is underway.

With the new building and the addition of adequate staff for this program, the Alabama Public Library Service is in a position to expand and improve the library services for the blind and physically handicapped.

PLANNING AND RESEARCH

The Alabama Public Library Service is a natural recipient of many surveys from a variety of organizations in all parts of the nation. As a matter of policy, the state agency reviews questionnaires for their applicability to improving libraries and the library profession in general. APLS reserves the right not to participate in a survey which is not beneficial to either.

The Long Range Program which is the state library agency's long range plan for statewide library development was updated with some minor revisions. The Long Range Program is scheduled for complete revision during fiscal 1979.

Planning and Research staff completed two surveys for the National Center for Educational Statistics. The *Survey of Special Libraries Serving State Government* required many hours of staff time. However, the responses from the survey population offset the time spent since the statistics will be useful in future planning. The second survey, SURVEY OF STATE LIBRARY AGENCIES, was simply a national statistical survey. Other research included participating in a study of the information needs of rural residents and the compilation of the APLS Annual Report 1977.

Of major importance was the award of a two-year grant from the Alabama Committee on the Humanities and Public Policy to establish a statewide humanities resource center. APLS staff undertook the necessary research to write the proposal and is currently involved in the planning of the Center.

LIBRARY SERVICES TO INSTITUTIONS

During 1978, APLS continued to support several LSCA projects of public libraries that provide services to state institutions, i.e., prisons, mental hospitals and juvenile detention centers. Ongoing programs at Draper Correctional Center, Searcy Mental Hosoital, Bryce Hospital, Eufaula Adjustment Center, Lurleen E. Wallace Mental Hospital were some of the institutions where programs are operational.

Also in 1978 the Alabama Public Library Service renewed its interagency agreement with the Commission on Aging. The agreement was first signed in 1974. Our agencies agreed to carry out several cooperative endeavors during the current year and follow a policy of coordinating the services offered by our agencies to most effectively use the information needs of the state's older citizens. Also, in 1978 the Commission on Aging agreed to purchase $1,000 worth of audiovisual material which will be housed at APLS and circulated through local public libraries to various groups serving the aging.

CONTINUING EDUCATION

Highlighting the year were a number of major conferences and the progress made towards achieving a plan for facilitating library education for the Alabama Library community.

"Who Runs Your Library", the first statewide conference for Alabama's public library trustees, was held during fiscal year 1978. Funded via our LSCA grant with support from the Alabama Library Association and West Point Pepperell, the conference was co-sponsored by the Trustees and Friends and Public Library Divisions of the Alabama Library Association, the Department of Educational Media and Office of Continuing Education at Auburn University and the Alabama Public Library Service.

The Conference was designed to provide trustees with an overview of their duties and responsibilities by covering such topics as lobbying, library law, policies, and budgeting.

Workshops and programs also held during the year included such topics as copyright, budget preparation, and securing adequate financial support. In keeping with APLS's policy of cooperating with other agencies, the copyright workshop was co-sponsored with the State Department of Education.

One of the most significant programs initiated by APLS in continuing education was the first Intensive Library Seminar (ILS) conducted in May at the University of Alabama. Aimed at the library administrator without graduate degrees in library science, the seminar was co-sponsored by the University of Alabama Graduate School of Library Service and Division of Continuing Education with the Alabama Public Library Service.

The Seminar was designed to provide the 24 participants with an overview of library theory and practice and featured such topics as societal change, community analysis, censorship, law and librarianship, leadership behavior, fiscal management and service to special groups. The seminar was so successful that it will continue as an ongoing program.

The APLS Steering Committee on Continuing Library Education submitted *Procedures for Developing a Library Continuing Education Plan for Alabama* to APLS and the Alabama Library Association in June, 1978. Both APLS and the Alabama Library Association approved the documents which outlined the *Steering Committee's* objectives and tasks for developing a statewide plan for library continuing education.

Continuing Education has become increasingly important in the library community due to rapid changes in technology, print and non-print media and the legal aspects of the profession. APLS continues to fulfill its commitment to this essential component of the library community.

ALABAMA PUBLIC LIBRARY SERVICE

The progress of the past year was made possible due to the employment of qualified staff capable of providing leadership and guidance in statewide library development. This continued library development proves that qualified staff is an essential component of any successful operation. Additional positions such as Institutional librarian, Children and Young Adult Services and Audio-Visual must be filled as soon as possible if APLS is to continue its progress toward developing the best possible library service for all Alabama citizens.

Throughout the state, libraries are beginning to benefit from increased public awareness of the role of libraries in the educational and cultural life of Alabamians. The program to improve relations with state and federal legislators is a step forward for the Alabama Public Library Service. This includes continuous contact with the Washington delegation as well as the State Legislature.

In the past year, the Alabama Public Library Service took positive steps to increase its participation in the provision of resource and reference services throughout the state. New, exciting advances in automation and the employing of additional professional librarians in Library Operations to work in reference and serials has enabled the agency to increase the effectiveness of its share of the responsibility for interlibrary loan, reference and resource sharing.

In addition, our personalized reference service for state employees and the Legislature continues to expand dramatically.

During the past fiscal year, the Cataloging Department neared completion of inputting APLS holdings into SOLINET. Our complete holdings will soon be entirely in the SOLINET system.

The Serials program continued to grow. The collection increased from 250 to 779 titles. Additional resources of APLS include 21 major newspaper subscriptions, 3,794 A-V items and more than 25,000 microforms. In the past year a total of 9,858 items were processed and added to the collection.

With the completion of the BPH addition, the A-V section expanded its facilities and its personnel to provide the efficient service called for by its expanded role in the statewide program. The 16mm film program in particular has greatly expanded.

Of particular significance to APLS and especially to the people of Alabama were its programs dealing with the Humanities. The Alabama Heritage program which began late in 1977 continued to awaken the interest in Alabama's heritage as written in history and literature. The effects of this project funded by a $214,000 grant from the National Endowment for the Humanities and being produced in cooperation with Troy State University, will be felt long after the official termination date in March 1979.

Materials for the Heritage project such as booklets, calendars and video-taped programs, were designed to capture the interest of out-of-school adults and in turn, create in this group an enthusiasm for the on-going programs and activities of the public libraries throughout Alabama.

An important result of this time-consuming project can be seen in the increased involvement of academic institution-based humanists in public library programming and APLS long-range plans. The interest exhibited by these professors should prove valuable in blueprinting strategy to meet the educational and informational needs of the public.

Another exciting program in the Humanities also aimed toward the out-of-school adult, particularly those who reside in small towns and in the western portion of the state, is the Humanist in Residence program. Local civic groups

throughout Alabama have been entertained with stories and anecdotes taken from the pages of Alabama history, all of which exhibit delightfully differing viewpoints. In addition, these programs have served as a reminder of the resources available at the library. This program was funded through a grant from the Alabama Committee on the Humanities and Public Policy.

As you will note in the statistical report, the circulation figures have increased tremendously. This is indicative of the increase in material acquired and of the improved and expanded services provided by the Agency.

As was the situation in all state library agencies during 1978, a tremendous amount of time, effort and staff was devoted to the planning of the Alabama Governor's Conference on Libraries and Information Services to be held prior to the White House Conference in 1979. In September five district meetings were held in order to have more involvement from the people of Alabama. In addition, each district was able to make recommendations for delegate selection for the Governor's Conference.

Planning and preparation continue for the Governor's Conference which is scheduled for January 7-9, 1979.

The Alabama Public Library Service Executive Board consists of James E. Daniel (Chairman), the Honorable Herndon Inge, Jr. (Vice-Chairman), Mrs. Mildred Phillips, Mrs. Kay Vowvalidis, and Mrs. Ann Pritchard. Their dedication, support and concern for library service in Alabama have made possible the progress of APLS. Their continued involvement is essential to the well-being and development of libraries in Alabama.

To the Governor and the Legislature, for whom this report was prepared, we are appreciative of your continued support of public libraries in Alabama. Though we still have much progress to make the Legislature increased the APLS budget from $2,040,000 in FY 1977-78 to $2,750,000 in FY 1978-79. State aid increased 34%, from 31¢ to 40¢ per capita, for a total amount of $1,377,666. Increased financial support has promoted improved public library services in Alabama.

The Alabama Public Library Service has had an exciting year filled with many accomplishments which would not have been possible without the cooperation of the Alabama library community, an Executive Board that is truly responsive to the needs of the library user, and a dedicated staff. The coming year promises to be an even more challenging year for Alabama libraries and the Alabama Public Library Service.

Anthony W. Miele
Director

Alabama Public Library Service

Library Operations Statistical Report
October 1, 1977 - September 30, 1978

DEFINITIONS

The annual report of the Alabama Public Library Service includes general library statistics for the year October 1, 1977 through September 30, 1978. Public Library statistics are given in three tables. The first is arranged alphabetically by county of location. The numerical code under *Region* identifies members of regional libraries and corresponds to the regional statistics in the last table.

The second table provides statistics for regional library headquarters. These statistics are for regional library services not included in the member library reports. For some single county regions (Autauga, Chambers, Cullman, Dallas, Etowah, Houston, Jefferson, Macon, Mobile, Montgomery, Russell, St. Clair, and Tuscaloosa counties) regional statistics are included in the county table listing.

The third table totals statistics for regional headquarters and member libraries. The arrangement is alphabetical by name of region. Grant awards under the Library Services and Construction Act are listed only in Table II, Regional Libraries Headquarters Reports, and Table III, Regional Libraries Totals for Member Libraries and Regional Libraries Headquarters.

Financial reports were from unaudited accounts. *Receipts* and *Expenditures* were not required to balance for this report.

Population reports are from the 1970 Census of the area served by the library.

Total Staff in FTE includes all full-time and part-time staff. A full-time equivalent is computed on a thirty-five or more hours work week. Part-time staff is expressed as a decimal fraction of one.

Finances are reported in dollars. Standard rounding at $.50 was used to eliminate cents in the entries.

Local government receipts are the revenues received from all local government sources. The value of services provided by a local government, but not charged to the library budget, is included when a local government provided the actual cost of the service for this report.

Revenue sharing funds are reported separately.

Other includes funds for personnel under the Comprehensive Employment and Training Act (CETA).

Wages and salaries reports do not include fringe benefits such as the employer's contribution to insurance, social security, retirement, etc.

The 1979 Directory of Public Libraries is arranged by city with library name, address, director, chairman of the Board of Trustees, and regional membership. An alphabetical list of regional libraries by name with address, director, counties served, and member libraries follows. A name index for locating libraries in the statistical tables and directory concludes this section.

An organizational chart and directory for the Alabama Public Library Service is included.
